

# What is telepresence?

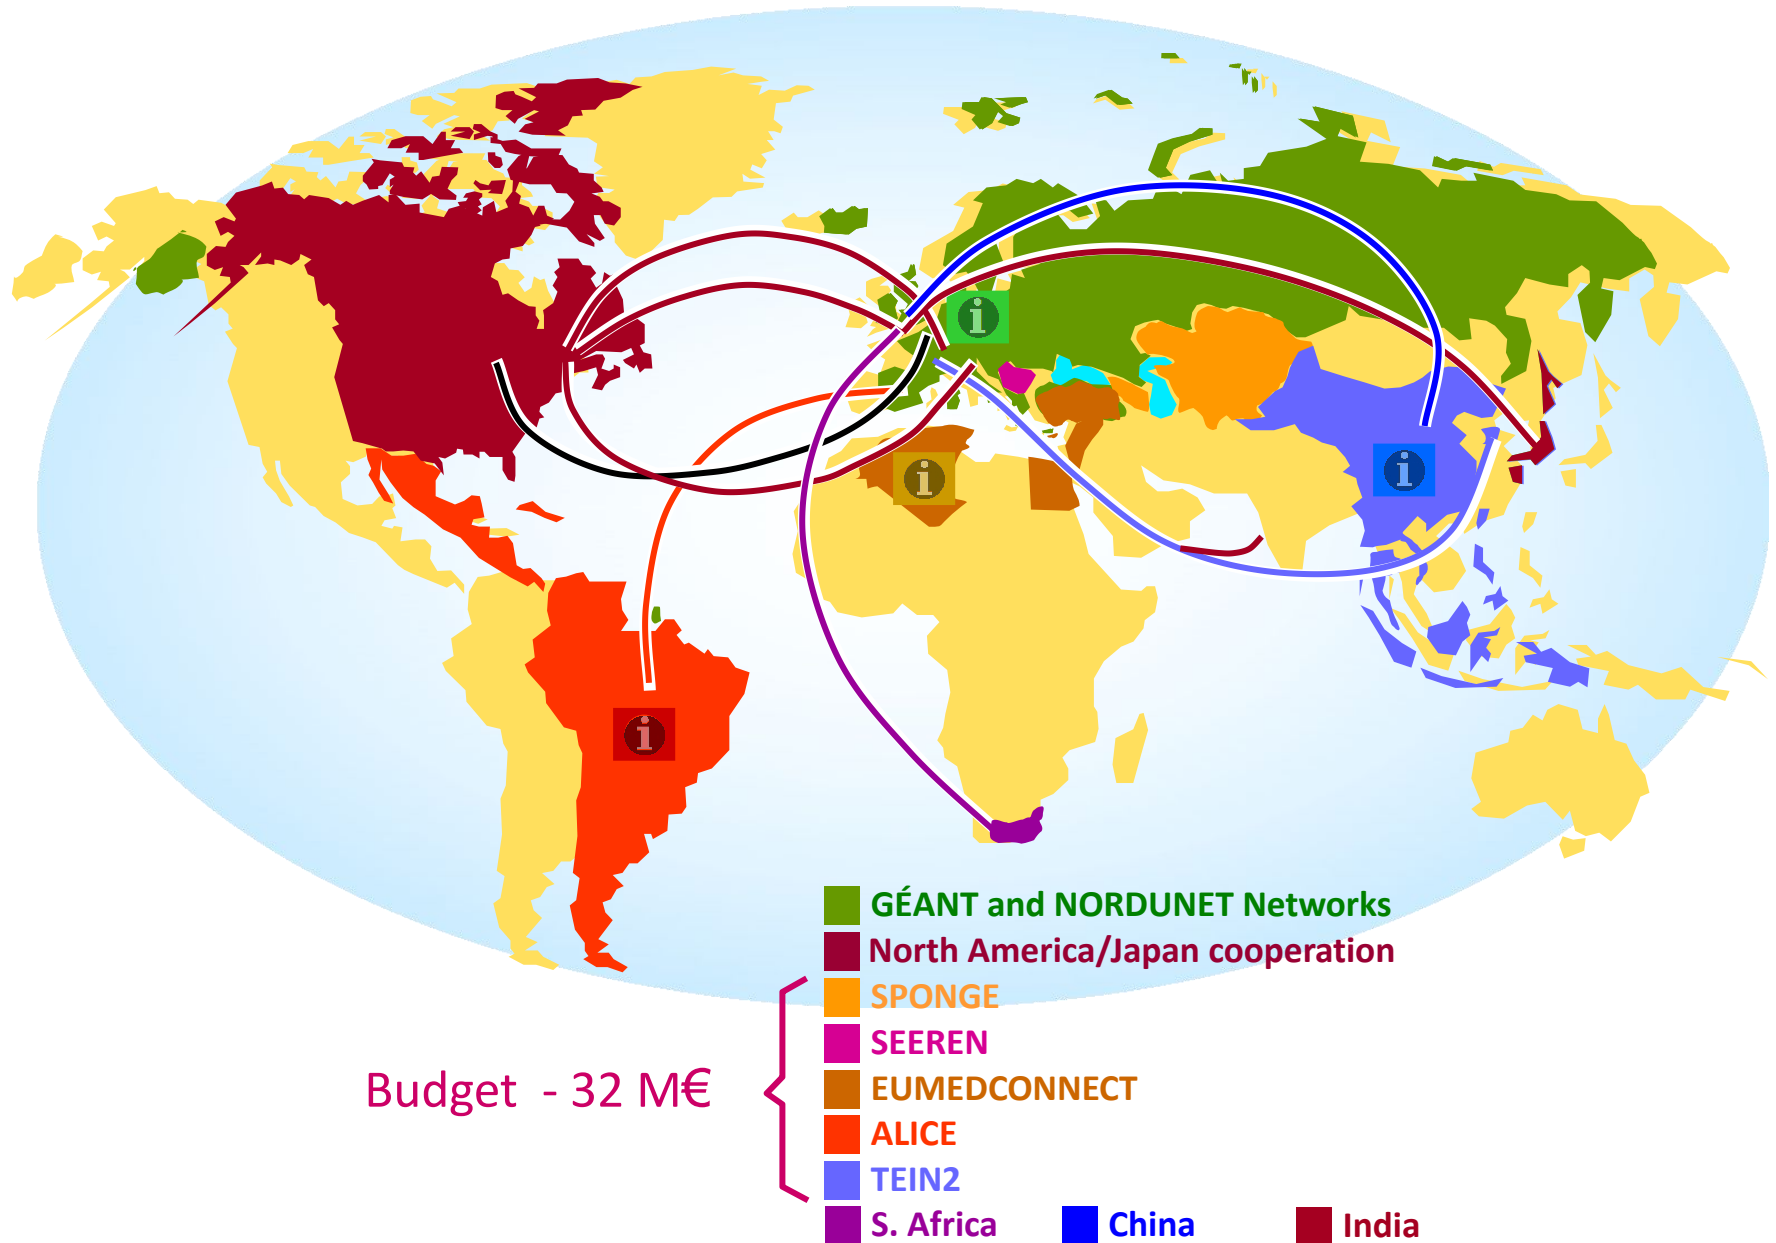

Imagine sitting in your work place lounge having coffee with some colleagues. Now imagine that you and your colleagues are still in the same room, but are separated by a large sheet of glass that does not interfere with your ability to carry on a clear, two-way conversation. Finally, imagine that you have split the room into two parts and moved one part 50 miles down the road, without impairing the quality of your interaction with your friends.

# Internet2's International Partners

# GÉANT - the global dimension

# Orthopaedic Surgery Working Group (OSWG), Internet2

- Internet2 formed the Orthopaedic Surgery Working Group (OSWG) on October 28, 2002 during its Fall Member Meeting in Los Angeles.
- On November 1, 2008 OSWG fulfilled its mission of forming orthopaedic research and research network both nationally and internationally and no longer exists.
- Internet2 replaced OSWG with the Orthopaedic Special Interest Group.

Los Angeles, CA

UCLA Visualization Portal

UCLA Operating Room

Stanford University

On October 29, 2002 OSWG and CORN delivered a “live” telecast of hand surgery from a UCLA operating room and images of digital anatomy from Stanford’s SUMMIT were transmitted to an audience attending the Internet2 Fall Member Meeting at the Los Angeles Regency Hotel and a group of medical student at UCLA.
