About MAGIC

General Objective

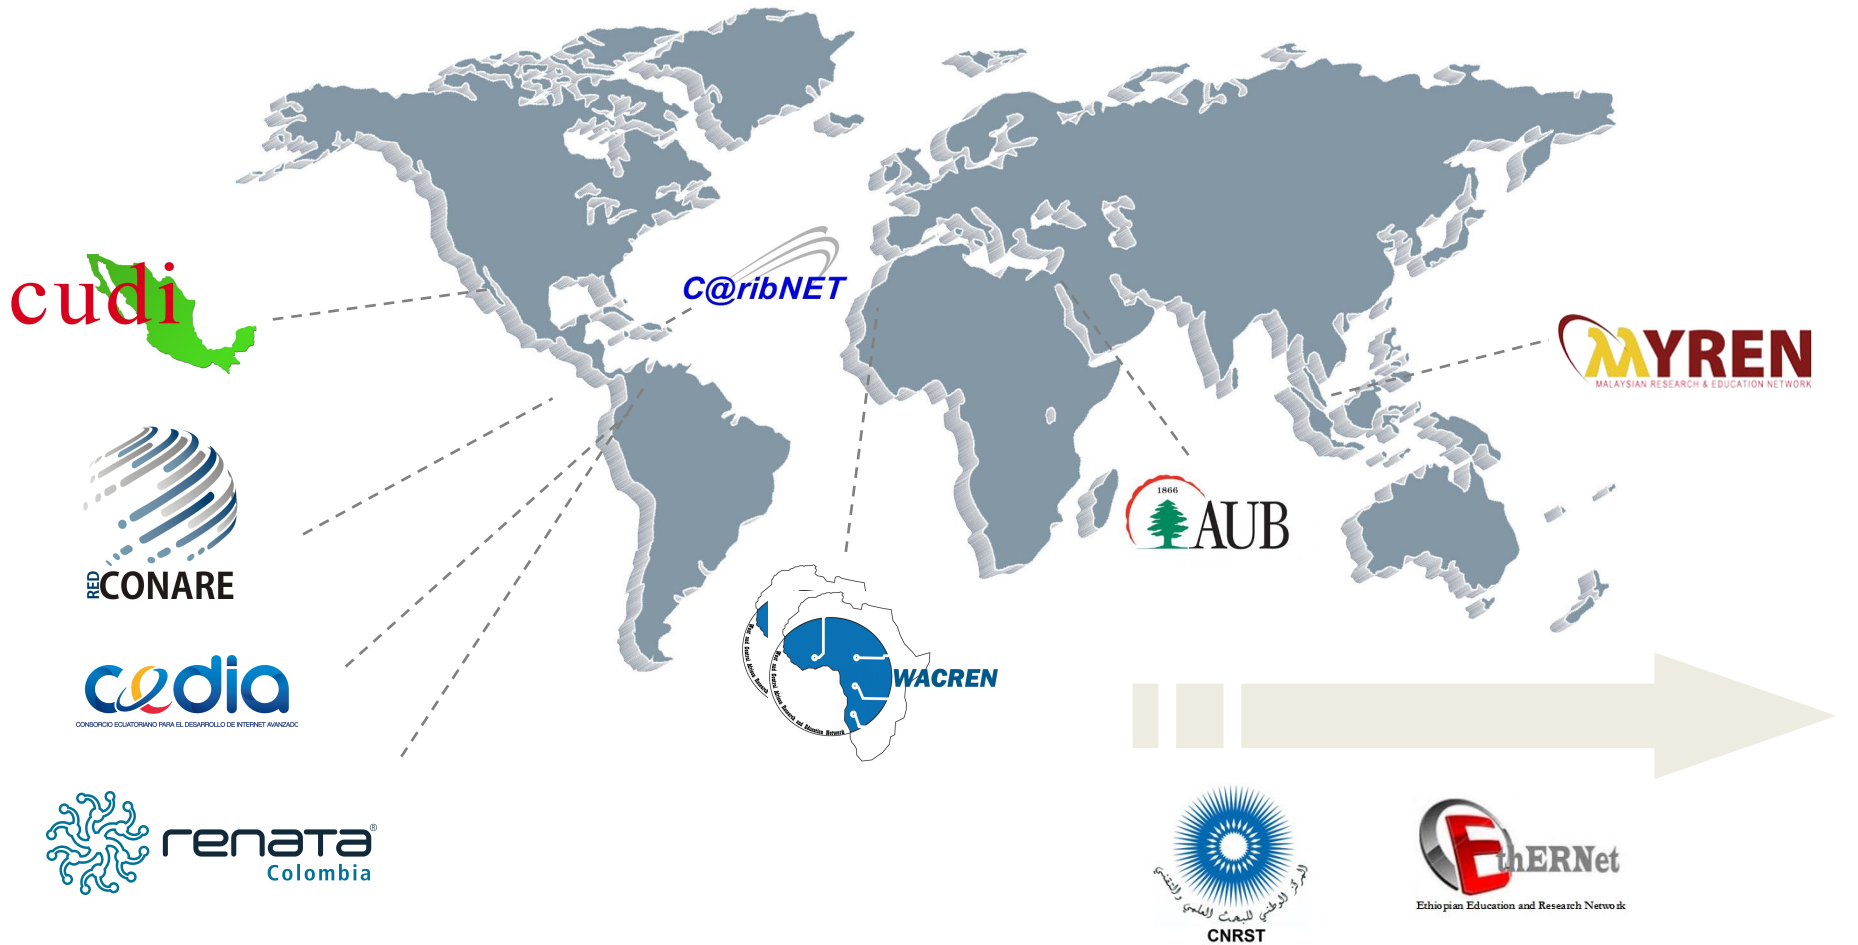

- To establish a set of agreements for participating world regions to consolidate/complete middleware for a marketplace of services and real-time applications to benefit global science communities.

What's Colaboratorio?

Platform developed by RedCLARA to support and promote the collaboration of scientists and academic groups initially intended for users in Latin America. It integrates services from different providers (RENATER, GARR, CERN, NORDUnet and RNP) gathering them in a space that allows the interaction between all of them.

The screenshot shows the Colaboratorio website interface. At the top, there is a navigation bar with the CLARA COLABORATORIO logo, language selection icons, and a user profile for Tania Altamirano López with a 'Log out' button. Below the navigation bar is a 'Services Menu' on the left with links to Home, Communities, Funding and partners, VC Espresso, SIVIC, eNVIO, Filesender Premium [Beta], Global Agenda, Document@s, and Foodle. The main content area is divided into several sections: 'Academic Breaking News' featuring an article about smartphones; 'Communities' with a 'Frequent' list and 'Of interest to you' section; 'Funding and partners' with 'Monash International Leadership Scholarship' and 'Monash International Merit Scholarship'; 'News' with 'Europe and Latin America expand their collaboration for open science'; 'Recent activities' with 'Magic-All' posts; and 'Global Agenda' with '6th International Conference on Language, Medias and Culture (ICLMC 2017)' and '3rd International Conference on Biotechnology and Agriculture Engineering (ICBAE 2017)'. At the bottom, there is a footer with various partner logos including RNP, RENATA, COAR, ROLINA, COAR, RNP, CUBA, RAU, and REQUIN.

What can we do on Colaboratorio?

- Communities: Creating and participating in academic/research groups.
- Funding and partners: Search for open funding calls for or a partner/collaborator.
- VC Espresso: Set up and participate in webconferences.
- eNVIO: Transfer large files.
- Filesender Premium
- Global Agenda: Find out about events organised around the world for scientific and academic communities.
- Document@s
- Foodle

What can we do on Colaboratorio?

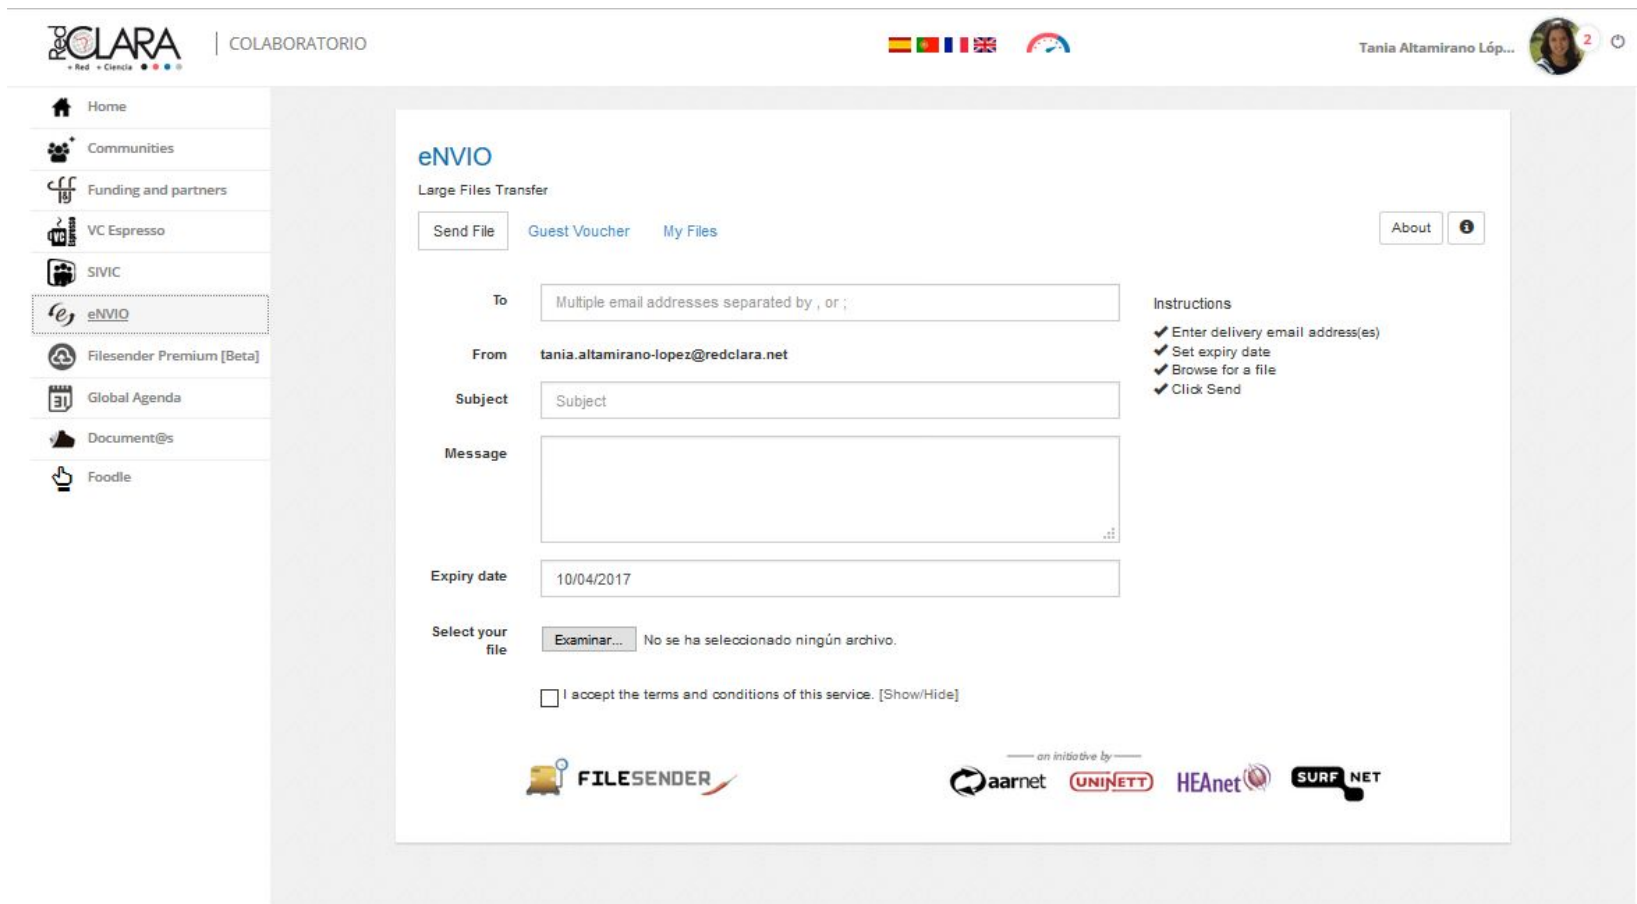

eNVIO: Large files transfer

- Complete the fields of the form, choose the file to be sent and write the recipient email (you have up to 10GB for every transfer).
- Define the period of time in which the material will be available for download; after 20 days the system will delete your files automatically.
- eNVIO allows you to upload files with extensions doc, xls, pdf, docx, odt, xlsx, mov, rar and zip. If you want to send more than one file or your document has a different extension, compress them and use one of the two last formats to upload them.
- Only the people you have shared the file with, will receive an email with a link to download it.

What can we do on Colaboratorio?

eNVIO: Large files transfer

The screenshot shows the eNVIO web interface. On the left is a navigation menu with items like Home, Communities, Funding and partners, VC Espresso, SIVIC, eNVIO (highlighted), Filesender Premium [Beta], Global Agenda, Document@s, and Foodle. The top header includes the REDCLARA COLABORATORIO logo, flags for Spain, France, and the UK, and a user profile for Tania Altamirano López. The main content area is titled 'eNVIO Large Files Transfer' and has three tabs: 'Send File' (selected), 'Guest Voucher', and 'My Files'. There are 'About' and 'i' buttons in the top right. The form includes fields for 'To' (with placeholder text), 'From' (tania.altamirano-lopez@redclara.net), 'Subject' (Subject), and a large 'Message' text area. An 'Expiry date' field is set to 10/04/2017. Below the form is a 'Select your file' section with an 'Examinar...' button and a message 'No se ha seleccionado ningún archivo.' At the bottom, there is a checkbox for terms and conditions and logos for FILESENDER, aarnet, UNINETT, HEAnet, and SURF NET.

Communities: Creating and participate in academic/research groups

The screenshot displays the MAGIC Colaboratorio interface. On the left is a navigation menu with options like Home, Communities, Funding and partners, VC Espresso, SIVIC, eNVI0, Filesender Premium [Beta], Global Agenda, Document@s, and Foodle. The main content area is titled 'Search for a Community' and includes a search bar and tabs for 'MY COMMUNITIES', 'A-Z', 'THEMATIC AREAS', and 'COMMUNITIES OF INTEREST'. A list of communities is shown, including BELLA-WPS (9 Members), Magic-WPS (45 Members), Gerencias RedCLARA (12 Members), Encuentro Latinoamericano de eCiencia (3 Members), and Magic-All (81 Members). A 'Collaboration map' is visible at the top right, showing flags for Spain, France, and the UK. A 'Global Agenda' section on the right lists various conferences and events with dates. A user profile for Tania Altamirano López is shown in the top right corner. A red banner at the top of the interface reads 'Communities: Creating and participate in academic/research groups'.

Partner Finder: Open funding calls and partner/collaborator

The screenshot displays the COLABORATORIO website interface. On the left is a navigation sidebar with icons for Home, Communities, Funding and partners, VC Espresso, SIVIC, eNVIO, Filesender Premium [Beta], Global Agenda, Document@s, and Foodle. The main content area is titled "Funding and partners" and includes a search bar with a dropdown menu for "Funds" and a search input field. Below the search bar are buttons for "Advanced search" and "My alerts". A "Calls" section features a "Suggest Fund" button and a filter menu set to "Recent" and "5". Three funding calls are listed:

- Horizon Prize - Materials for Clean Air** (2018-01-23)
Clinical medicine - Health sciences - Health biotechnology
In the European Union, the average life expectancy is estimated to be decreased by 8.6 months, because of exposure to particulate matter resulting from human activities. The inhalation of particulate matter can also lead to adverse effects in the respiratory, cardiovascular, immune, and neural systems. In addition to its effects on the human health, particulate matter can also have adverse effects on climate change and ecosystems.
EUR 1.000.000 -3.000.000
- Technology services to accelerate the uptake of advanced manufacturing technologies for clean production by manufacturing SMEs** (2017-03-28)
Industrial Biotechnology - Economics and business
Foresight studies show that the massive integration of advanced manufacturing will displace in a few years many of the current traditional manufacturing processes. In particular, energy and resource-efficient and low carbon technologies and the circular economy will be key drivers of innovation in SMEs. To remain competitive, manufacturing SMEs will increasingly need to rely on advanced manufacturing technologies for clean production.
EUR 1.000.000 -4.000.000
- Innovating SMEs - segmentation along lifecycle and sectors (analytical research activity)** (2017-03-28)
Economics and business
Creating a higher societal impact from innovation support requires increasing its efficiency. In the recent past innovation support agencies recognised that successful innovation is not originating only from scientific research and technological development, but from new business models, the uptake of technologies, design and organisational changes. Furthermore 'internationalisation' of business activities is seen as a case of business innovation in some countries.
EUR 1.000.000 -1.000.000

On the right side, there are two panels: "Looking for partners" which states "There are no announcement" with a "Read more" link, and "Similar Profiles" which lists two profiles: Telesalud (Investigador) and Xabier (Coordinador), both with "Read more" links. The bottom of the page features a row of partner logos including Innovated, RNP, enata, KONAE, ROLNA, RECORDIA, BANCIA, RABO, CUBA, TOPO, RAU, and REACOLN.

[OWSD PhD fellowships for women](#) / 2017-06-30
Organization for Women in Science for the Developing World - OWSD
With funds generously provided by the Swedish International Development Cooperation Agency (Sida), OWSD has instituted a fellowship programme for female students from Sub-Saharan Africa and Least Developed Countries (LDCs), who wish to pursue postgraduate training leading to a PhD, at centres of excellence in the South (developing countries), outside their own country. The general purpose of the scheme is to contribute to the emergence of a new generation of women leaders in science and technology, and to promote their effective participation in the scientific and technological development of their countries. The specific aims of the scheme are: To improve access to educational and training opportunities in science and technology for young and talented women graduates from Sub-Saharan Africa and LDCs. To increase the scientific productivity and creativity of women scientists in Sub-Saharan Africa and LDCs. To empower a new generation of talented women to assume a leadership role i

- Started in 2011, organized by RedCLARA
- Is a Network of ICT Directors from the Latin American Universities
- Its objective is to “Offer a space of knowledge and collaboration for the ICT Director of the Latin American Universities”
- 5 anual Conferences had been developed.
- It is one of the few Computer and Communications Conferences that deals with those who carry out the policies and the responsibility of the services and technological infrastructures of the institutions of Higher Education.

Thematical Axes of the Conference

Experiences on developed projects or services in operation that offer significant solutions in all the university work.

- ICT Solutions for Education
- ICT Solutions for Management
- ICT Management and Governance
- Software Infrastructure and development
- Information Security.
- Added value services in advanced networks

Themathical Axes 2017

- ICT Solutions for Education
- ICT Solutions for Management
- ICT Management and Governance
- Software Infrastructure and development
- Information Security.
- Added value services in advanced networks

2017 calls

- Call for papers:
 - <http://tical2017.redclara.net/index.php/participe/llamado-autores>
- Young Innovators
 - <http://tical2017.redclara.net/index.php/participe/llamado-jovenes-tic-innovando-para-mejorar-su-universidad>

Deadline:

- April 17, 2017

- Notification to selected authors: Last week of May

Thank you!
