## eNVIO: Large files transfer

- Complete the fields of the form, choose the file to be sent and write the recipient email (you have up to 10GB for every transfer).
- Define the period of time in which the material will be available for download; after 20 days the system will delete your files automatically.
- eNVIO allows you to upload files with extensions doc, xls, pdf, docx, odt, xlsx, mov, rar and zip. If you want to send more than one file or your document has a different extension, compress them and use one of the two last formats to upload them.
- Only the people you have shared the file with, will receive an email with a link to download it.
